

To Install software:

1. Register on Coxmate website: <http://gps.coxmate.com.au/>
2. Go to: <http://gps.coxmate.com.au/pcanalysissoftware.php>
3. Select PC Analysis Install
4. Click on [Click this link to download the PC Analysis Software](#)
5. Run the downloaded setup.exe application
6. When you first run the software it will show a 'box' with a 16 digit 'software lock'. Copy this into the Software Lock box and hit 'Generate Key'
7. The 16 digit Unlock Key will be sent to you. Copy this into vacant space (Unlock Key)
8. Software should now run.

PC ANALYSIS SOFTWARE

To Download and Install:

- Click on Download PC Analysis Software below - note some virus protection software will warn against downloading .exe files - ignore this message.
- Run the Setup.exe. file which has been downloaded - this will install the programme.
- Start the PCoxMateSC application. The Coxmate logo (and picture) will appear on desk top and/or in 'All Programmes' in the Coxmate Folder
- A small window will appear with a 16 digit Lock Code. Copy and Paste this code into the 'Software Lock' box below, and click on Generate Key.
- The Unlock key will then be emailed to you. Enter (Cut and Paste) this key into the vacant Unlock Key box and validate.
- Software will now operate. You now have a license for 12 months.
