BOAT BUILDER			
MODEL			
SIZE		YEAR	
SERIAL # (opt)			

- \* Provide measurements in inches or centimeters.
- \* Use spacing increments of 16in or 40cm as indicated from one station to the next.
- \* Take as many S or B measurements to reach the boat ends.
- \* A tailor's tape is easiest for circumferences.
- \* Widths are measured across the top of the boat from edge to edge.
- \* Call with any questions.
