Cobalt

CoxOrb	
Size	105mm/4 1/8" diameter, 90mm/3.5" deep
Weight	0.49kg/1lb 1.5oz
Display	High contrast, sunlight readable, backlight LCD display with automatic light level control
Controls	Five outer edge buttons (start/stop,split/clr,time,mute and recall). Two separate volume control buttons
Mouldings	Front Bumper: Injection moulded elastomeric polymer Back Bumper: Injection moulded elastomeric polymer Main Unit: Toughened Acrylic Battery Pack: Polycarbonate Speakers: PC/ABS alloy
Stroke Rate	10-55 per minute, rate input from accelerometer or seat magnet
Timing	0-99:59.59 (minutes:seconds)
Stroke Count	0-999
Memory	2GB memory stores data every stroke (time/rate)
Compliance & Durability	
Waterproof	IP67, NEMA-6
Impact	Will survive repeated drops onto concrete from 1.5m/4ft
EMC	Fully tested and compliant
Buoyancy	Unit with battery pack installed and microphone attached floats, unit alone floats, microphone does not float
Battery Pack	
Specification	17Wh 1600mAh removable battery pack
Life	5-6 hours of normal use (50% volume, 50% talking)
Charging Time	3 hours with 1000mA charger
